

Benning Road Transfer Station Modernization project

Location: 3200 Benning Road NE, Washington DC, 20019

Substantial Completion: Late 2028

August Milestone

- On August 15, the Department of Public Works (DPW) and the Department of General Services (DGS) released a solicitation for the demolition and final stage of abatement. The solicitation is scheduled to close on September 13.
- Department of Public Works hosted Pre-Bid site conferences for interested parties to understand the scope of the work pertaining to Benning Road Transfer Station.

September Projections

- The Department of Public Works and the Department of General Services plans to award contracts for demolition and the 3rd phase of abatement. The project schedule will be published once the selected contractor has been onboard.
- The Department of Public Works with assistance from sister agencies, will start drafting the Architecture & Engineering solicitation to be posted within the Fall season.

For your safety, only authorized personnel are allowed to access the construction site.
